WHAT YOU GET

Deliverables built for exam day, not theory.

Every part of Dominate Prelims 2027 is built around one goal: what you practise every morning should show up as marks in the exam hall in May 2027. Here is exactly what you get.

Tests at exam time

Daily Tests go live from 11:00 AM to 12:00 PM, every day, so you train your focus to peak at a fixed hour. Preparatory and Advanced Tests run from 11:00 AM to 1:00 PM. All tests are available Online and Offline at our Delhi and Pune campuses.

Same-day discussion

A live Test Discussion starts at 12:00 PM, right after every Daily Test. Every option, every elimination route and every static anchor is explained while the paper is still fresh in your mind. There is no discussion session for the Preparatory, Core and Advanced Tests.

Detailed solutions

Every answer is explained through the static concept behind it, not just the correct option. You learn why an answer is right, so the same idea helps you crack its next variants.

All-India Ranking

Every test carries an All-India Ranking, so you can see where you stand against serious aspirants across the country and measure your progress instead of guessing it.

Performance analytics

The Test Analytics Dashboard breaks down every attempt subject by subject into correct, incorrect and unanswered questions and accuracy, with a Dive Deeper view that shows exactly where to focus next.

One-on-One Mentorship

A weekly one-on-one session with your mentor turns your test data into a plan, covering strategy, content gaps and elimination errors.
